

Smart Repeater

WL-ZRPMNPW-G11-01

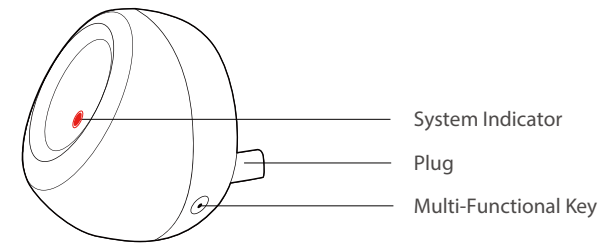

Overview

Expand ZigBee signal coverage; Can be installed in the region where signal needs to be transmitted;

It applies to large apartment, plug and play.

Features

1. Communication Mode: IEEE 802.15.4 (ZigBee/SmartRoom)
2. Extend gateway communication coverage.
3. Stable signal transmission.
4. Direct plug-in power supply, space-saving.
5. Small size and delicate.

Parameter

Power Parameter:	100-240V AC, 50/60Hz
Standby Power Consumption:	≤0.5W
Wireless Communication Distance:	500m (visible)
Installation Method:	Portable Type
Working Temperature/Humidity:	-10 ~+45 / ≤95%RH (noncondensing)
Material & Color:	PC, White
Dimensions (diameter *thickness):	54*54 (mm)
Net Weight:	35g
Gross Weight:	180g
