

Dream Flower

Multiple Functions to Meet with Multiple Needs

WL-ZSSMDPT-DMTHNODT-G120-01

Overview

Multifunctional environment detector with integrated gateway functions. It is recommended to place the product indoors in a flat open place, such as TV cabinet in the living room, screen cabinet in the entryway, bookshelf and other furniture; applies to home, hotel, apartment, club, office, etc.

Features

1. Communication Mode: IEEE 802.15.4 (ZigBee/SmartRoom), IEEE 802.11a/b/g/n/ac, IEEE 802.3/3u.
2. Multifunctional ZigBee gateway; linkage control by App; Stylish and Elegant Design.
3. Get real-time environmental data of PM2.5/VOC/CO₂/Noise by App.
4. Gesture & Tapping Control/Voice Broadcasting.
5. With 16 million colors lighting, it can be remote controlled to preset lighting mode and switch color mode according to user's need.
6. 2.4G/5G dual band Wi-Fi, High signal coverage and Penetrating, less signal interference; Provide a standard Ethernet interface to realize secure transmission of data.

Parameter

Power Parameter:	12V 2A, AC/DC Adapter
Standby Power Consumption:	5W
Hard Disk Capacity:	32-512G (optional)
Noise Decibel Range:	0~199dB
CO ₂ Detection Concentration Range:	400-2000PPM
VOC Detection Range:	0-1000ppb
PM2.5 Detection Range:	0~500 µg/m ³
Installation Method:	Mobile Type
Working Temperature/Humidity:	-10 ~+45 /≤95%RH (noncondensing)
Dimensions (diameter x height):	Φ174x378.6 (mm)
Main Body Color/Material:	White, PC+ABS+ Aluminum Alloy
Net Weight:	2230g
Gross Weight:	4184g
